Vita Nova Foundation is preparing a shelter for women (with children) who have been sexually exploited. We are looking for a social worker who loves to pioneer with us.

Job description

From the summer of 2021 we are open to receive employees who have been sexually exploited. It will be your task to support these women.

Future job description

This involves the recovery of the traumas of the women as well as their education and employment. You are responsible for the recovery programme and take actively part in carrying out this programme in close contact with a psychologist. You do administrative work as well and lead the debriefing meetings about the progress of the women.
